DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 34-35 and 38-54, drawn to methods of orienting immune response toward a Th1 type or mixed Th1/Th2 type response utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group II, claim(s) 36, drawn to a method of preparing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten utilizing chemical extraction techniques.

Group III, claim(s) 37, drawn to a method of preparing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten utilizing freeze/thaw, acid precipitation and dialysis techniques.

Group IV, claim(s) 55-61, drawn to methods of treating infectious viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group V, claim(s) 55-56, drawn to methods of treating infectious bacterial viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group VI, claim(s) 55-56, drawn to methods of treating infectious fungal disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group VII, claim(s) 55-56, drawn to methods of treating infectious parasitic viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group VIII, claim(s) 55-56, drawn to methods of treating cancer utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group IX, claim(s) 55-61, drawn to methods of preventing infectious viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Art Unit: 1645

Group X, claim(s) 55-56, drawn to methods of preventing infectious bacterial viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group XI, claim(s) 55-56, drawn to methods of preventing infectious fungal disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group XII, claim(s) 55-56, drawn to methods of preventing infectious parasitic viral disease utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group XIII, claim(s) 55-56, drawn to methods of preventing cancer utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

Group XIV, claim(s) 62-71, drawn to pharmaceutical compositions comprising *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten.

The inventions listed as Groups I-XIV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that where multiple products and processes are claimed, the main invention shall consist of the first invention of the category first mentioned in the claims and the first recited invention of each of the other categories related thereto. Accordingly, the main invention (Group I) comprises the first recited **method**, methods of orienting immune response toward a Th1 type or mixed Th1/Th2 type response utilizing *Klebsiella pneumonia* membrane fractions combined with an antigen or hapten. Further pursuant to 37 C.F.R. 1.475(d), the ISA/US considers that any feature which the subsequently recited products and methods share with the main invention does not constitute a special technical feature within the meaning of PCT rule 13.2 and that each of such products and methods accordingly defines a separate invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
